

Potential solution of LGBTQIA+ movement

Presented by The Tawhid Titan

What is LGBTQIA+

The term LGBTQIA+ encompasses a diverse range of sexual and gender identities, including lesbian, gay, bisexual, transgender, queer/questioning, intersex, asexual, and others. Among all these (except intersex and asexual) are referred to the one and only homosexuality. [1]

Let's discuss about transgender ideology. What it says ? It says "if a man 'feels like a woman', then he is a woman. Society and law will consider her as a woman. Whether the man is physically perfectly normal, or the father of three children, it doesn't matter."

Let's dive deeply into it. For example Mr Sharif (Biologically men) thoughts he would like to address himself as a women. According to the mentioned ideology he will become to she. Okay. Now whenever he will go to fulfill his sexual desire what she(transwomen) will involve sexual activity with a man. Now think quietly Mr. Sharif who is totally man (in all ins and outs) evolving sex with a man. What is it called? It's called the homosexuality. We have just given only an example of one term but all the terms actually refers to the same activities. Let's discuss what quran and hadith have satated about it .

Why it is prohibited?

Almighty Allah is the source of all rights in our life, property, time, wealth, body. Man does not discover his rights by himself. The state or any other earthly power does not create rights. Rights do not come from a UN document, a constitution or the thinking of contemporary people. The right to creation comes from the creator. Man is not sovereign. Neither man nor any other creature can make its own rules. Man is not permitted to do anything other than what Allah has made lawful. Man has no right to approve what Allah has made illegal.

As Muslims, our standard is Islam. Another name of the Holy Quran is Al-Furqan, which means the discriminator of truth and falsehood. We know that truth and falsehood, good and bad, haram and halal are determined by Allah and His Messenger.

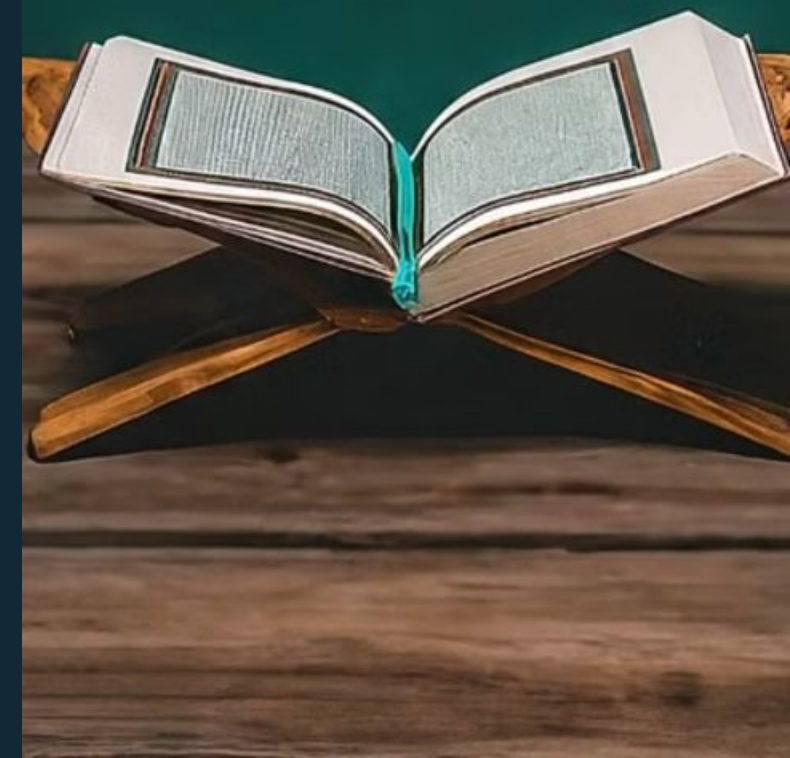

From Quran

Transgenderism is rebellion against God Almighty. When Iblis was expelled, he said to Allah Almighty,

cursed by Allah—who said, “I will surely take hold of a certain number of Your servants. I will certainly mislead them and delude them with empty hopes. Also, I will order them and they will slit the ears of cattle and alter Allah’s creation.” *[Surah Nisa 4:118-119]*

We see a clear reflection of this verse in transgenderism today. Transgender is literally a satanic agenda.

In Quran Allah says about the people of Lut who were engaged in homosexuality. Allah also mentioned their final consequence for doing such evil.

From Quran

And (We sent) LūT (*Peace be upon him*) when he said to his people, Do you commit the shameful act in which nobody in the world has ever preceded you? You come to men lustfully instead of women. No, you are a people who cross the limits. The answer of his people was no other than to say, “Expel them from your town. They are a people who pretend too much purity.” So, We saved him and his family, except his wife. She was one of those who remained behind. And We rained down upon them a rain. So, look! How was the fate of the sinners!

[Sura Al-A'raf 7: 80-84 (Taqi Usmani)]

Do not go near adultery. It is truly a shameful deed and an evil way.

[Sura Al-Isra 17:32]

From Hadith

The Prophet (ﷺ) expressed concern about the behavior of the people of Lut in his Ummah.

[Sunan-At-Tirmijhi, 1457]

Deliberately possessing and impersonating the opposite sex is prohibited. Ibn Abbas (Ra.) said:

'The Messenger of Allah cursed those who wear female disguises among men and those who wear male disguises among women look.

[Sahih Bukhari, Mishkat Sharif, Hadith: 4429]

From Hadith

So if someone with a perfectly healthy body deliberately claims to be the opposite sex, wears the opposite sex's clothes, imitates and performs 'sex reassignment' surgery, all of these will be considered haram.

Rasulullah (sm) also said, 'Allah has cursed those people who distort His creation.

[Sahih Bukhari, hadith:4886]

“Whoever you find doing the action of the people of Lut, execute the one who does it and the one to whom it is done.”

[Al-Tirmidhi 1456]

According to science

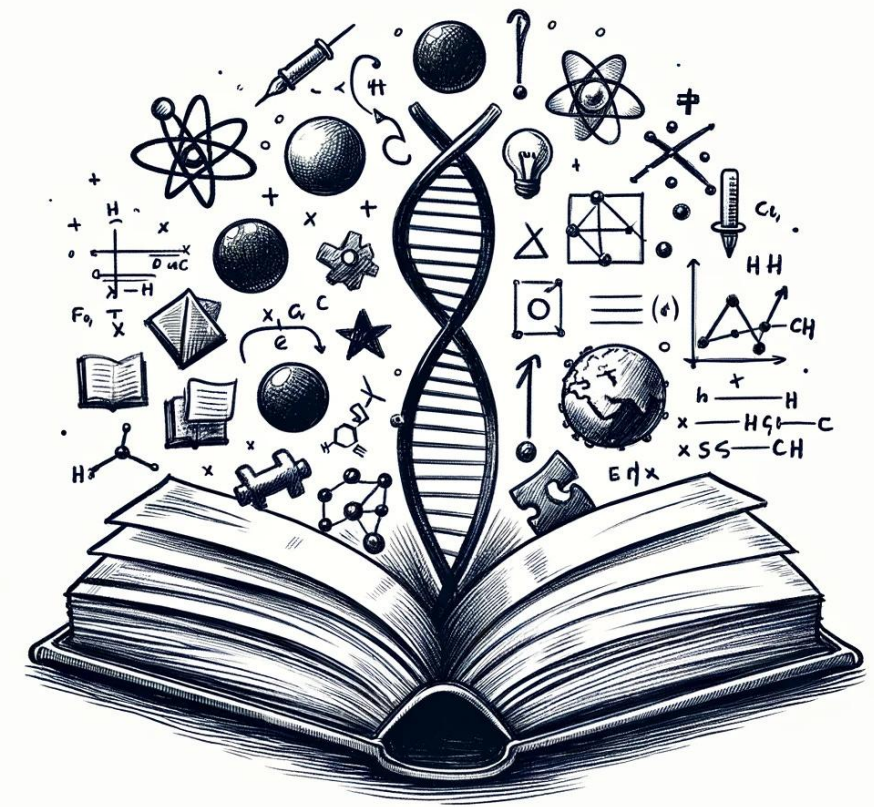

According to scientific understanding, human beings are typically classified as either male or female based on their reproductive system. Individuals with bodies designed to produce sperm are classified as males, while those with bodies designed to produce eggs are classified as females. This classification goes beyond external physical characteristics and encompasses the entire reproductive system [1]

Intersex individuals, on the other hand, are not considered a separate gender or anything in between. They are still classified as either females or males but may have variations in their genital, structural, or genetic development. Such variations are medically referred to as Disorders of Sex Development (DSD). [2]

Result

In previous section we see that, "Transgender" is literally a satanic agenda.

Almighty God said, "And whoever takes Satan as a guardian instead of Allah has certainly suffered a tremendous loss."

[Surah Nisa 4:119]

Allah Almighty punished the people of Lut (A.S.) Because of their misdeeds. Allah says,

"and subjected them to a terrible rain. So evil was the rain of those who were warned. Surely, in this there is a sign, but most of them are not believers."

[Sura Ash-Shuraa 42:174-175]

Impact on society

Accepting transgenderism will harm not only the individual but the entire society.

- Transgender is an act of extreme transgression against Almighty Allah.
- To legitimize transgenderism is to allow male intrusion into spaces that are socially reserved for women.
- The inevitable result of transgenderism is the normalization and legitimization of homosexuality.
- The inevitable decline of family and society. The result of accepting transgenderism is to accept various sexual disorders as normal and valid. Erasing the distinction between men and women. Accepting what he claims for himself. No more looking at anyone's body. Only claims will be looked at. If the body is meaningless, then concepts like woman, man, marriage, father, mother, son, daughter and family will also be meaningless. Transgenderism is basically a movement aimed at erasing these linguistic, ideological, social, state and legal divisions. The ultimate goal of this doctrine is to destroy all structures of creation and society.

That's why we should be more careful about this satanic agenda and take effective measures to prevent it.

Dealing this problem according to the Seerah

Fitna is a thing that comes one after another.... Its evidence is also available from the hadith of Rasulullah Sallallahu Alaihi Wasallam. [1] Not only that, this fitna will catch people ins and outs [2] But there is also good news. Those who are aware of this fitna will be saved.[3]

But just as Fitna is coming in our era, it also came in the era of Rasulullah Sallallahu Alaihi Wasallam. How did he deal with Fitna? What was the prophetic method? And what will be the solution to the Fithna called transgender? Let's shed some light on this....

At the beginning, we will see what measures Rasulullah Sallallahu Alaihi Wasallam and Khulafae Rashidin took to deal with Fitna and how we should deal with them?

[3] Kitabul Fitna Volume 1, Imam Nuaim Ibn Hammad, Hadith No-05, p: 31

Consultation

To deal with any problem, Rasulullah Sallallahu Alaihi Wasallam used to consult with the Companions Radi Allahu Azmain and tried to find a solution to the problem that arose. When we look at the battles organized in his era, we can see the perfect example. From the battle of Badr, Uhud, Ahzab to the conquest of Makkah, he gave priority (importance) to the opinion of the Companions. In the battle of Ahzab digging trench was the advice Salman Farsi(RA) which was the strategy of the persian. [1] And this strategy plays very important role winning the war. Even after the Treaty of Hdaybiyyah, when the Messenger of Allah, (may God bless him and grant him peace), ordered the slaughtering of the Hadi (animals slaughtered for Umrah or Hajj), the Companions stood still and slaughtered the Hadi himself on the advice of his wife. [2]

[1] Seerat Khatamul Ambiya (Sm), p: 101

[2] Siratul Mustafa (sm.) 2nd volume, p: 318

Consultation

There are many other such examples in the Siraa'h to read. This means that Rasulullah Sallallahu Alaihi Wasallam used to take the advice of the Companions in any matter. He did not ignore anyone as small or low in status. From this events and learning we can also implements this in this Fitna to solve. We have already seen that Rasulullah Sallallahu Alaihi Wasallam used to consult with the Companions Radi Allahu Anhum about any matter. Even now there is no substitute for consultative work on any problem that arises. But the question is who to consult? Now the Companions do not care! But there are Warisul Ambiyas.[1] There is also no alternative to consulting those who research or have knowledge of transgender issues.

With whom to talk

1

Islamic Scholars

We discuss how we can keep ourselves free from this fithna.

2

Scientist

We can request the scientist to do more research about the impact of it.

3

Doctor

We have to consult with the doctor. Some transgender person comes to doctor for surgery or other health issue. Doctor can play a vital role discouraging them from this kind of act.

4

Other country's people

We can seek help from other countries or communities who are partially succeeded to solve this issue.

5

Transperson

Importantly we can talk with them how they started to involve this kind of evil activities. What were the reasons behind engaging in these activities. After identifying the reason we can take steps to solve this problem.

Dawah

Dawah was one of the merits of Rasulullah Sallallahu Alaihi Wasallam. Basically, many people were impressed by his behavior and joined the religion of Islam! [1] He gave priority to da'wah in any matter. He used to explain to people in simple, luminous paint language. He used to do so in front of whom it is necessary to present the argument or the recitation of the verses, which is suitable. He used to discuss with the Christians the futility of their religion, as well as for the Jews, he used to highlight the aspects of Judaism. Adee Ibn Hatim RA. in the event of his acceptance of Islam, it is seen that the Prophet (may God bless him and grant him peace) gave him such an argument that he became embarrassed. [2] He even had a good relationship with the infidels-polytheists so that it would be easy to invite him to the religion. [3] His title of Al-Amin in his pre-prophet life It bears witness to that....[4]

Transgenderism is now widely propagated not only in western powers but also in our country. It is not even left out of textbooks! [1] There is no alternative to make people aware of the contrary. Offline Da'wah is one of the most effective methods at the field level. The futility of transgenderism should be spread among parents, students and teachers. Area wise Halakas or workshops can be organized if needed. Books or pamphlets on transgender issues can be distributed among the general public.[2]

We can take help from the person who have more influence on the general people like teachers, doctors, business people, journalists, and social media influencers, writers. We should protest this ideology from whatever we can do it. Like if we writer we can write book against it.

Taking wise steps

1

Boycotting The Products

We can boycott the products of the company that supports the Ideology. Thus we can weaken that selves financially and others sides.

2

Exposing the irrationalism

We can share them their ideologies irrationalism to the mass people. So that they can know their distorted mentality.

3

Restrain from Social relations

If it's possible to boycott socially we should do so. We can see this type of decision from seerah in era of after Tabuk war.[Ar-Rahiqul Makhtum, Shaykhul Hadith Allama Safiur Rahman]

4

Being very cautious

We should always keep our eye on the trans people whether they are going to do any Conspiracy hiddenly. For example if the secretly dealing with the government to change the law.

Being strict on Punishment

Rasulullah Sallallahu Alaihi Wasallam was as strict as a mountain in implementing the punishment prescribed by Islam. But with sinners he was as soft as ever. He also forbade swearing at sinners. [1] He was particularly strict with adulterers and homosexuals. He executed their punishment as quickly as possible.[2] We see this clearly in the case of Khulafay Rashedin. After the death of the Prophet, may Allah bless him and grant him peace, Abu Bakr. When the caliph came, the zakat deniers, Irtidad [3] and false claimants of prophethood spread all around. The Sahaba (may Allah be pleased with them) suppressed it with a strong hand. [4] They were unwilling to make even a single concession in this matter. And as a result of which one of the battles of Yamama in history was organized![5]

Being strict on Punishment

That is, we can briefly say that Rasulullah Sallallahu Alayhi Wasallam was always cautious about Fitnah and Khulafay Rashedin also followed him....

Islamic Shari'ah is very strict with regard to sins of grave social status. So that these sins can be rooted out before they spread social ills. It can be understood by looking at the verses and hadiths about adultery and homosexuality.

Implementing or application of the law

The implementation of law to the modern world is really complex and varies from country to country, so we categorize in **3 types**:

Shariah Based country

1

This can be thought of as the situation after the conquer of Makkah. Where the shariah was implemented. In this types of country the the law will be worked as mention in the

hadith(Direct Execution).

“Whoever you find doing the action of the people of Lut, execute the one who does it and the one to whom it is done.”

[Al-Tirmidhi, 1456]

2

Moderate Muslim Country

The Prophet (peace be upon him) prioritized dawah (inviting others to Islam) and spreading awareness about the truth.

Similarly, it is essential to raise awareness about the dangers and falsehoods of transgender ideology through various means, such as workshops, publications, and social media campaigns.

Performing Dua

Seeking Allah's Help

The Prophet Muhammad (SW) always sought Allah's help and guidance through dua in all matters.[1] As Muslims, we believe that the power to overcome challenges ultimately lies with Allah, and we should turn to Him through sincere and consistent dua.

Dua as a Weapon

The Prophet (peace be upon him) described dua as the weapon of the believer, the pillar of religion, and the light of the heavens and the earth.[2] By making dua, we can seek Allah's protection, guidance, and assistance in overcoming the fitna (trial) of transgender ideology.

Steadfastness and Patience

Along with dua, it is essential to remain steadfast in our faith and patient in the face of challenges. The Prophet (peace be upon him) and his companions endured numerous trials and tribulations, but their unwavering faith and reliance on Allah ultimately led them to victory.[3]

Conclusion: Preserving the Natural Order

Transgender ideology poses a significant challenge to the natural order established by Allah and the fundamental principles of Islam. By following the prophetic example and the guidance of the Quran and Sunnah, Muslims can address this issue through consultation, dawah, wise measures, legal implementation, and sincere dua.

It is crucial to remain steadfast in our faith and to protect the sanctity of Allah's creation. By raising awareness, implementing appropriate measures, and seeking Allah's help, we can overcome the fitna of transgender ideology and preserve the natural order and social structures that are essential for the well-being of individuals, families, and societies.
